

Comprehensive accounts receivable

Optimize your order-to-cash operations.

- ✓ Breeze through cash applications with smart payment matching
- ✓ Deploy custom policies for managing and monitoring claims
- ✓ Get better collections outcomes with a strategy-driven workflow and outreach

Payment Portal

- Elevate customer experience with self-service invoicing and payments—applied anywhere across the customer hierarchy
- Get paid more consistently with auto-pay, direct draft, and promise-to-pay options

Cash Application

- Effortlessly align payments with invoices and accounts using intelligent cash app matching
- Process lockbox, bank data, and remittance advice regardless of the format

Collections

- Reduce costs with automatic customer segmentation and outreach based on your predefined collections strategy
- Improve your collections with real-time data and call lists that auto-prioritize risky accounts

Disputes, Claims, Settlements

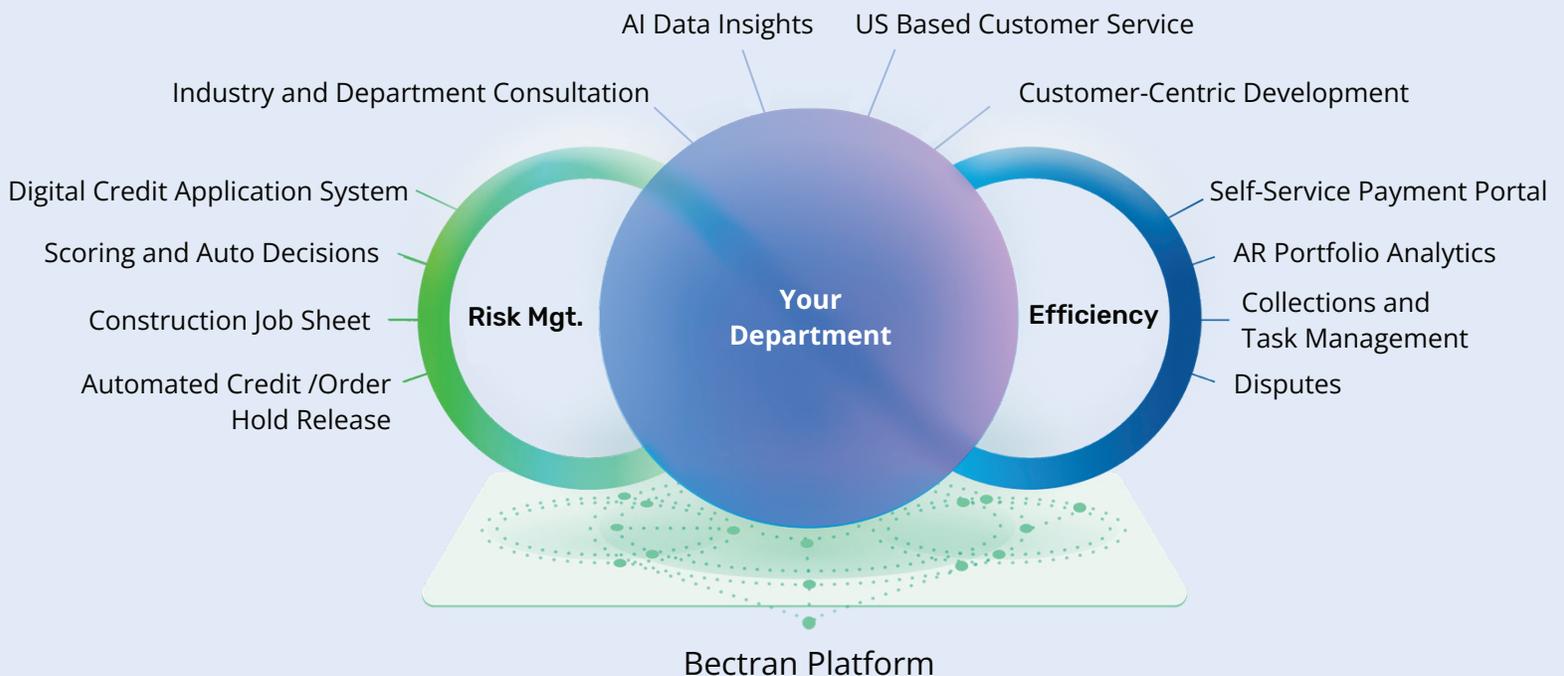

- Set up policy-driven strategies to accurately mark and escalate disputes at the point of transaction
- Efficiently track and resolve disputes/claims in one dashboard with customizable alerts

Perfect your AR.
